  25. "Restoration Drama" (Savoy Theatre), N Wedgwood, Electrical Design, Feb 1994.

-----  
This is a collection of photocopied extracts and books, taken from IMechE, Inst Naval Architects, etc. dealing with heating, ventilating, some air conditioning and refrigeration for cargo.

1. Chronological Table 1545-1967
2. Bibliography & numbering original collection
3. "Air conditioning", Part-1, E R Carter, Design & Components in Engineering, 21 Jan 1970.
4. "Points to be considered in the fitting of Her Majesty's ships", E Belcher, Inst.Naval Arch, 8 April 1865
5. "On the ventilating apparatus employed in the City of Dublin Company's steamers", J Clarke, Inst.Naval Arch, 29 Mar 1862
6. "On a method of ventilating the engine rooms and stoke-holds of steam vessels", T P Baker, Inst.Naval Arch, 23 Mar 1866
7. "Refrigeration on shipboard" (history 1879-1929), H J Ward, Proc.IMEchE, pp113-144, 1, 1929
8. "A history of marine engineering", J Guthrie (Hutchinson)
9. "Practical refrigeration for ships", A Greenfield, IMarE XL 11 Dec 1928
10. "The economic history of British shipbuilding", S Pollard, thesis for London University
11. "Marine installations for the carriage of refrigerated cargoes", R Balfour, Inst.Naval Arch, 3 Apr 1903
12. "Ventilation of merchant ships", J Webb, Inst.Naval Arch, 4 Apr 1884
13. "On pumping and ventilating arrangements", Inst.Naval Arch(?)
14. "Pumping, draining, flooding, ventilating" (from "Seamanship"), W Henderson, July 1907
15. "The heating of modern ocean liners", W C Wallace, Inst. Naval Arch, ( Apr 1908
16. "A short history of naval & marine engineering", P J Cowan (CUP, 1938)
17. "50 years of progress in ship heating & ventilating 1893-1943" J W Markert, HPAC, Oct 1944
18. "Air conditioning and ventilating in Royal Navy ships", R V Holman, Refig.AC & Ht Recov, Jan 1984
