*A steam-powered Ice Machine of 1862. From **Technology in the Country House**, published by Historic England*

**Historic England is the public body that looks after England's historic environment. It champions historic places, helping people to understand, value and care for them, now and in the future. You may sign up to our Newsletter to keep up to date with our latest news, advice and listings.**

**[www.historicengland.org.uk](http://www.historicengland.org.uk)**

**The Building Services and Emergency Planning Team provide advice on how historic property owners, managers and custodians can reuse, replace or refurbish their building services and improve energy efficiency and control energy use as well as advise on fire engineering and emergency planning.**

**Historic England and the Building Services and Emergency Planning Team are proud to be sponsors of the CIBSE Heritage Group 2017 Calendar.**

#### **CIBSE HERITAGE GROUP**

**The CIBSE Heritage Group is made up of a number of like minded professionals, many retired, who have spent a lifetime in building services and bring that experience to bear in discovering, analysing and recording the history of this essential aspect of the world we live in. It is the oldest CIBSE Special Interest Group (1973).**

**The heritage website is a substantial resource for historians but also for working architects, designers and engineers amongst many others, particularly those involved in historic projects including building services with which they may not be familiar. By using the website and/or by reference to the Heritage Group members, answers may be found to questions which could otherwise add considerably to the time and thus cost of the project.**
