Special Newsletter No.5

August 2020

THANK YOU - ALL NHS & SUPPORT STAFF

We continue our tribute to earlier hospitals and staff with a selection of historic photographs including many from early years of the NHS which took place around the third quarter of the life of our Institution founded in 1897 as the Institution of Heating and Ventilating Engineers (IHVE).

The CT (Computed Tomography) Scanner for taking pictures of the brain was developed by Godfrey Hounsfield and first installed at the Atkinson Morley Hospital in Wimbledon 1962

The CIBSE Heritage Group is made up of a number of like-minded professionals, many retired, who have spent a lifetime in building services and bring that experience to bear in discovering, analysing and recording the history of the Built Environment, this essential aspect of the world we live in. It is the longest established CIBSE Special Interest Group (1973).
